RE: Scope determination on countervailing duty order on aluminum extrusions from the People's Republic of China (C-570-968).

1. On 10/31/2012, in response to a request by the Valeo group and its affiliates ("Valeo"), Commerce issued a final scope determination that the T-series and M-series automotive heating and cooling system products which Valeo imports are within the scope of the countervailing duty order on aluminum extrusions from the People's Republic of China ("PRC") (C-570-968).
2. Because the T-series and M-series automotive heating and cooling system products are comprised of extruded aluminum, and because the extensive fabrication the imported products undergo during the production process does not put them outside the scope, Commerce found this product to be within the scope of the order.
3. Continue to suspend liquidation of entries of aluminum extrusions from the PRC, including the T-series and M-series automotive heating and cooling system products imported by Valeo described above, subject to the countervailing duty order on aluminum extrusions from the PRC.
4. If there are any questions by the importing public regarding this message, please contact the Call Center for the Office of AD/CVD Operations, Import Administration, International Trade Administration, U.S. Department of Commerce at (202) 482-0984. CBP ports should submit their inquiries through authorized CBP channels only. (This message was generated by O8:RS.)
5. There are no restrictions on the release of this information.

Michael B. Walsh
