Notice of Lifting of Suspension Date: 01/13/2016

TO: { Directors Of Field Operations, Port Directors }

FROM: { Director AD/CVD & Revenue Policy & Programs }

RE: Antidumping duty scope determination on aluminum extrusions from the People's Republic of China (A-570-967)

Notice of the lifting of suspension occurred on the message date of these instructions. See paragraph 5 below.

1. Commerce received a scope ruling request from Bridging China International Ltd. (Bridging China). Commerce issued a final scope determination on 12/28/2015 that Bridging China's Telescoping Pool Poles are not within the scope of the antidumping duty order on aluminum extrusions from the People's Republic of China (A-570-967).

2. Commerce determined that Bridging China's Telescoping Pool Poles models listed below are outside the scope of the order because they meet the criteria of the finished merchandise exclusion. The following models are excluded from the scope pursuant to this scope ruling:

Bridging China describes in its request that the Telescoping Pool Poles consist of four different "base" models (i.e., "Base Model A," "Base Model B," "Base Model C," and "Base Model D") that vary in adjustable telescopic lengths. The thirty separate and distinct Telescoping Pool Poles covered by this scope request fall under these four base model categories.

Bridging China's Telescoping Pool Poles are comprised of either two or three sections of various length tubular extruded aluminum of 6063 alloy, in accordance with the categorization of aluminum alloys by The Aluminum Association. The outer surface of the aluminum tube portion of the Telescoping Pool Poles is anodized and finished in either blue or silver colors. Depending on the Base Model, the outer surface is either smooth or ridged. The Telescoping Pool Pole aluminum tubular section has an outside diameter of approximately 1.125 inches and a thickness of approximately 0.038 inches.

Bridging China's Telescoping Pool Pole further consists of either an inner or outer locking mechanism, depending on the Base Model, a handle portion and a distal end portion to which various accessory attachments are attached to the end of the pole.

3. For all entries of Bridging China's Telescoping Pool Poles not within scope that remain unliquidated on or after 11/12/2010, CBP shall terminate suspension and liquidate entries of product not within scope which were entered, or withdrawn from warehouse, for consumption.
4. Refund any cash deposits and release any bonds relating to Bridging China's Telescoping Pool Poles described above.
5. These instructions constitute notice of the lifting of suspension of liquidation of entries of Bridging China's Telescoping Pool Poles entered, or withdrawn from warehouse, for consumption on or after 11/12/2010.
6. The assessment of antidumping duties by CBP on shipments or entries of this merchandise is subject to the provisions of section 778 of the Tariff Act of 1930, as amended. Section 778 requires that CBP pay interest on overpayments or assess interest on underpayments of the required amounts deposited as estimated antidumping duties. The interest provisions are not applicable to cash or bonds posted as estimated antidumping duties before the date of publication of the antidumping duty order. Interest shall be calculated from the date payment of estimated antidumping duties is required through the date of liquidation. The rate at which such interest is payable is the rate in effect under section 6621 of the Internal Revenue Code of 1954 for such period.
7. Unless instructed otherwise, for all other shipments of aluminum extrusions from the People's Republic of China not covered by paragraph 2 above, you shall continue to collect cash deposits of estimated antidumping duties for the merchandise at the current rates.
8. If there are any questions by the importing public regarding this message, please contact the Call Center for the Office of AD/CVD Operations, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce at (202) 482-0984. CBP ports should submit their inquiries through authorized CBP channels only. (This message was generated by OVI: VC.)
9. There are no restrictions on the release of this information.

Alexander Amdur
