RE: Liquidation following ITC notification of negative determination of critical circumstances for certain corrosion resistant steel products from the PRC for the period before 11/06/2015 (C-570-027)

1. On 07/20/2016, the International Trade Commission (ITC) published its determination that critical circumstances do not exist with respect to subject imports from the People's Republic of China (81 FR 47177). As a result of the ITC's negative determination of critical circumstances, CBP should terminate the suspension of liquidation for all shipments of certain corrosion resistant steel products from the People's Republic of China that were entered, or withdrawn from warehouse, for consumption before 11/06/2015 (the date of publication of Commerce's affirmative preliminary determination notice in the Federal Register). All such entries should be liquidated without regard to countervailing duties (i.e., return all cash deposits).

2. Notice of the lifting of suspension of liquidation of entries of merchandise entered, or withdrawn from warehouse, for consumption before 11/06/2015 (the date of publication of Commerce's affirmative preliminary determination notice in the Federal Register) occurred with the publication of the ITC's final determination of its investigation (81 FR 47177, 07/20/2016). For all other shipments of certain corrosion resistant steel products from the People's Republic of China, continue to collect cash deposits of estimated countervailing duties for the merchandise at the current rates unless instructed otherwise.

3. The interest provisions of section 778 of the Tariff Act of 1930, as amended, do not apply.
