RE: Liq following notification of ITC neg final determ of critical circumstances for certain cold-rolled steel flat products from People's Republic of China for the period before 12/22/2015 (C-570-030)

1. On 07/13/2016, the U.S. International Trade Commission (ITC) determined that critical circumstances do not exist with respect to certain cold-rolled steel flat products from the People's Republic of China. As a result of the ITC's negative determination of critical circumstances, CBP should terminate the suspension of liquidation for all shipments of certain cold-rolled steel flat products that were entered, or withdrawn from warehouse, for consumption before 12/22/2015 (the date of publication of Commerce's affirmative preliminary countervailing duty determination notice in the Federal Register). All such entries should be liquidated without regard to countervailing duties (i.e., refund all cash deposits).
2. Notice of lifting of suspension of liquidation of entries of merchandise entered, or withdrawn from warehouse, for consumption before 12/22/2015, occurred with the publication of the ITC's final determination of its investigation (81 FR 45305) on 07/13/2016. For all other shipments of certain cold-rolled steel flat products from the People's Republic of China, continue to collect cash deposits of estimated countervailing duties for the merchandise at the current rates unless instructed otherwise.
3. The interest provisions of section 778 of the Tariff Act of 1930, as amended, do not apply.
