RE: Scope determination on antidumping duty order on aluminum extrusions from the Peoples' Republic of China (PRC) A-570-967.

1. On 03/27/2014, in response to a request by Shenyang Yuanda Aluminum Industry Engineering Co., Ltd., (Yuanda), Commerce issued a final scope determination that Yuanda's curtain wall units that are produced and imported pursuant to a contract to supply a curtain wall are within the scope of the AD duty order on aluminum extrusions from the PRC (A-570-967).

2. Because the language of the scope of the order specifically provides that subject aluminum extrusions may be described at the time of importation as parts for final products (including curtain walls) that are assembled after importation, Commerce found that Yuanda's curtain wall units that are produced and imported pursuant to a contract to supply a curtain wall are within the scope of the order. Curtain wall units that are produced and imported pursuant to a contract to supply a curtain wall fall short of the final finished curtain wall that envelops an entire building. Further, as provided in the language of the scope of the order, the scope does not include the non-aluminum extrusion components.

3. CBP should suspend liquidation of entries of curtain wall units that are produced and imported pursuant to a contract to supply a curtain wall effective 05/10/2013, which is the date of initiation of the scope inquiry.

4. If there are any questions by the importing public regarding this message, please contact the Call Center for the Office of AD/CVD Operations, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce at (202) 482-0984. CBP ports should submit their inquiries through authorized CBP channels only. (This message was generated by OIII: JRT.)

5. There are no restrictions on the release of this information.
